PROFILE

Motivated B.Sc. Information Technology student with hands-on experience in HTML, CSS, JavaScript, and React.js. Built multiple web development projects and eager to start my career through internships while continuously improving my technical skills.

PROJECTS

Weather App

APRIL-MAY 2026

- Developed a weather application that displays real-time weather information using a public Weather API.
- Displayed temperature, humidity, wind speed, and weather conditions based on the searched location.

Expense Tracker

JUNE 2026

- Built an expense tracking application to manage daily income and expenses.
- Implemented add, edit, and delete functionality with automatic balance calculations.

E-Commerce Website

JULY 2026

- Developed a responsive e-commerce website with a clean and user-friendly interface.
- Implemented product listings, shopping cart functionality, and search features.
